Volunteering for a South African Non Profit company

ABOUT ME

I'm an experienced, internationally oriented business lawyer working independently since 2008. Before that I worked in legal research, export, pharmaceuticals and car lease. I help companies navigate complex legal challenges with practical, business-minded solutions, with a strong foundation in IT contracting, privacy (GDPR), intellectual property, AI, R&D, and international contracting in general.

Clients value my ability to quickly grasp their needs and translate them into clear, actionable strategies. Whether supporting a fast-moving project, stepping in as interim or general counsel, or advising on high-stakes negotiations and operational improvements, I bring legal precision, commercial insight, and a hands-on attitude that gets results.

I'm not just a lawyer who spots risks — I'm a partner who helps you move forward.

PROFESSIONAL EXPERIENCE

Some Clients

- Greif International Holding B.V.
- Brinkhof Advocaten, (privacy team)
- Versuni
- Goldman Sachs
- NN-Group
- Athlon Car Lease International B.V.
- Philips
- DSM Firmenich
- ING
- Ceva Logistics

Achievement examples

ICT Procurement , Outsourcing, AI

- I covered the full procurement cycle — from RFIs and RFPs through negotiation and closing — with vendors including Accenture, Adobe, Cisco, IBM, Microsoft, Oracle, SAP, Salesforce, and Workday. I advised on the full range of ICT services (SaaS, IaaS, PaaS, licensing, hosting), as well as security, SLAs, DORA, EBA, NIS2, GDPR, and AI Act.
- On outsourcing, I have led complex cross-border programmes: a worldwide SAP procurement rollout, replacing a 27-country intranet network, setting up a European data centre in Ireland, and serving as project lawyer on the IT workstream of a major bank-insurance demerger
- On AI, I have been involved in assessing and developing assessments, contracts and training for (the use of) AI Systems of suppliers and contracting AI functionalities

Privacy and compliance

- I have supported clients across the full GDPR spectrum — from implementation from scratch to day-to-day compliance, including data protection and retention policies, processing agreements, privacy notices, ROPAs, DPIAs, DSAR's, cookie notices, data breach handling, and privacy training.
- I have managed complex, group-wide privacy contracting processes across multiple jurisdictions.
- Beyond GDPR I have drafted multi-country whistleblower policies.

International Contracting, IP, Legal Ops

- For a few clients I have set up a legal department and drafted the standard templates for all legal topics.
- I was member of a project team that was to implement and increase the global rental business whereby my role was to oversee the legal and compliance subjects of the project.
- Project lead for the legal integration project for all European companies of client with the new parent company.
- Setting up joint ventures abroad, start-ups, acquisition contracts, R&D cooperation contracts
